DESERT STING (DS-5)

**DELIVERING
RELIABILITY.
DELIVERING
PRECISION.**

The Desert Sting is a family of lightweight, air-platform released, precision-guided, glide weapons (GGW). The DS-5 is differentiated by weight and warhead size.

Desert Sting uses inertial guidance augmented by global navigation satellite system (GNSS) information (GAINS). A semi-active laser (SAL) seeker configuration further improves accuracy performance against designated targets.
